Notification Regarding Discontinuation of Supply of Refurbished SDE31s

Applicable models

DFL7340 and DFL7341 equipped with an SDE31 engine

Notification

Sales of new SDE31 stealth dicing engine products (DISCO Parts No.: DGLIKID1S03-3) had already ended, and we will also discontinue supply of refurbished products based on the schedule below.

Final date for ordering refurbished products

December 15, 2023

However, the final date may be moved forward if inventory for refurbished products runs out. At present, we plan to ensure there is inventory for around 10 machines.

Delivery date

The delivery date for refurbished products is around 2 months after placing the order, but depending on the ordering situation, there are cases where the desired delivery date cannot be met. Please place your order well in advance.

- If you request a refurbished product, we will take your used engine. We request your cooperation so that we may collect it soon after delivery of the refurbished product.

Warranty period

365 days from the invoice date

- Even if the replacement operation is delayed due to circumstances at your company, the warranty period will not be extended.
- Even if problems or failure occur within the warranty period, there are cases where it will not be possible to supply a replacement product. Depending on the situation, we may take the damaged product and repair it. Thank you in advance for your understanding.

Request to consider changing product

We will propose a successor stealth dicing engine. Please contact a DISCO sales representative.
